| DAY 3 | Thu, Oct 22, 2015 | | | | Site Tours* |

The Marketplace

The place to do business! Our mini-expo and networking area where all coffee breaks are hosted. We ring this busy space with interactive demo-pods to showcase leading suppliers and innovators.

Design & Dev

With 300+ delegates, the TDS15 conference track is the key two-day programme of the Summit focusing on real estate, funding, design, delivery and fit-out for future stadiums.

DTECH15

NEW: DTECH is our special technology track with a total focus on designing and installing smart stadium infrastructure – WiFi / DAS, signage, screens, broadcast etc. It's the specialist track for CTOs and tech players.

Community/SME

NEW: *Community/SME is our new conference track dedicated to community, training and the smaller sports facility projects. We're bringing together the nextgen SME (Small & Medium-Enterprise) projects which have their community at heart.

The Networking

With the global stadium development sector gathered in one place for two days, our networking is invaluable. We mix up venue tours with networking receptions to ensure everyone meets.

The Projects

Each year we host more than 40 VIP delegations from new stadium, arena and sports facility projects around the globe. [Check online](#) for the latest updates on VIP attendance.
